ENTRANCE & REGISTRATION

Automating Discovery

Exploring the Future and Challenges of Lab Automation

Wednesday 24th April

12:00 - 1:00pm

Mereview Restaurant, Alderley Park

Free to Attend

DR. LOUISE CARNEY

Dr. Louise Carney is Senior Health, Safety and Risk Manager for Bruntwood, supporting the UK-wide portfolio, with a focus on Bruntwood SciTech.

Prior to this, Louise spent over 20 years in HE as a research scientist (and latterly laboratories manager), working in biological containment laboratories. She was also departmental and faculty biological safety advisor at the University of Manchester and is a member of both Institute of Safety in Technology and Research (ISTR) and Certified member of IOSH.

CLAIRE BURROWS

Claire Burrows is a Partner at Brabners LLP. As a specialist regulatory compliance lawyer with expertise in health and safety, Claire is often involved in complex regulatory investigations.

Claire helps clients to navigate their way through regulatory requirements and assists them to investigate, defend and mitigate enforcement action when things go wrong. She is known for having significant expertise in crisis management, incident response and major investigations. With over a decade's experience as a regulatory specialist, Claire has acted on numerous high-profile health and safety cases following fatal and serious incidents.

An experienced advocate who has appeared in the Magistrates and Coroners Courts on numerous occasions, Claire also advises clients on their regulatory obligations and how to effectively demonstrate compliance.

Claire advises large, corporate clients (both national and international) across various sectors including construction, demolition, manufacturing and healthcare. Strategic thinking and being fully immersed in her clients' businesses enables her to offer practical, honest and commercial advice.

SUPPLIERS FAIR PANEL 2024

DR. JON GAWN

Dr Jon Gawn is the Director and Founder of GMBSC Ltd, a specialist Biosafety Consultancy based in Cheshire and is advising organisations at Alderley Park, including Bruntwood SciTech.

Jon has a unique blend of experience as a former HSE Principal Specialist Inspector for Biological Agents, University Biological Safety Officer and research scientist in government, academic, healthcare and industrial containment laboratories. He is the outgoing Chair and Fellow of the Institute of Safety in Technology and Research (ISTR).

STEVE GIBBONS

Steve Gibbons is the Territory Sales Manager at Unigloves UK Ltd - one of the leading glove manufacturers based here in the UK.

After a career working within the NHS, Steve joined Unigloves and has over 2 years experience of enabling peoples hands to work safely across the Midlands, Lincolnshire, Yorkshire and Humberside regions while specialising in industry sectors such as laboratory, dentistry, care and tattoo.

He uses his knowledge and experience to work with our partners, and most importantly the users of gloves, to understand their needs and applications to best identify the glove which will suit them, whilst always holding safety at the forefront.

ABOUT BRUNTWOOD SCITECH

Bruntwood SciTech is the UK's leading developer of city-wide innovation ecosystems and specialist environments, helping companies – particularly those in the science and technology sectors – to form, scale and grow. It is also the largest dedicated property platform serving the growth of the UK's knowledge economy to become a global science and technology superpower.

A joint venture between Bruntwood, Legal & General and the Greater Manchester Pension Fund (GMPF), Bruntwood SciTech provides high quality office and laboratory space and tailored business support, offering unrivalled access to finance, talent and markets, an extensive clinical, academic and public partner network and a sector-specialist community of more than 1,100 companies.

Its campus locations include Alderley Park in Cheshire; Innovation Birmingham; Birmingham Health Innovation Campus in partnership with the University of Birmingham; Melbourn Science Park in South Cambridgeshire; Liverpool Science Park as a shareholder in Sciontec Liverpool; and a cluster in the heart of Manchester's Oxford Road Corridor innovation district – Manchester Science Park, Citylabs in partnership with Manchester University NHS Foundation Trust (MFT), Circle Square – a joint venture with Vita Group; and the £1.7bn JV partnership with The University of Manchester – ID Manchester.

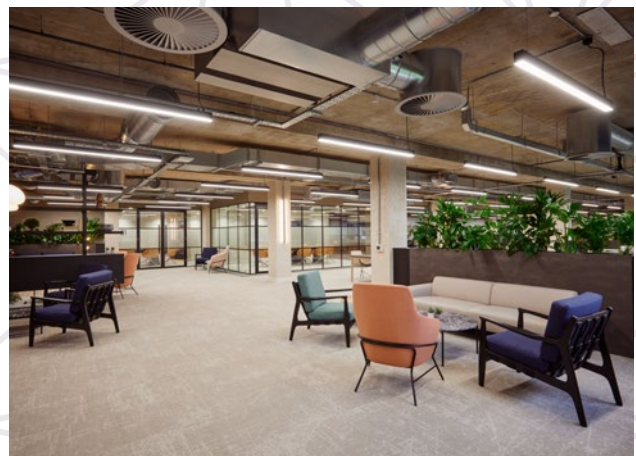

About Alderley Park

Alderley Park, a development by Bruntwood SciTech, is a world leading life science and technology campus offering over 1m sq ft of CL2 biology and chemistry labs, and state-of-the-art workspace.

Set in 400 acres of parkland, it is home to a thriving life science and tech community of over 250 businesses including award winning biotech, pharmaceutical, diagnostics, digital health and medical communications companies with expertise in drug discovery, oncology and infectious diseases, amongst others.

Alderley Park provides an ecosystem in which your life science business can grow and develop, through offering a range of specialised scientific services, business support and curated events programme. The Park offers a truly comprehensive range of highly specialised services, available on a pay-as-you-go basis, including the Open Access Lab, Thermo Fisher Supply Centers, and Glass Wash. In addition, the Park also provides supporting services including: cryogenics, ice and dry ice; cold storage (4°C, -20°C, -80°C); scientific logistics and sample shipping; equipment maintenance and lab coat laundry.

To find out more please visit us [here](#).

1. Cytiva

Cytiva and Pall Life Sciences have come together to deliver the breadth, depth, and scale researchers and biopharma need to advance future therapeutics - from discover to delivery. Our combined portfolio includes well-recognized names such as ÄKTA™, Amersham™, Biacore™, FlexFactory™.

www.cytiva.com

 [View stall location](#)

4. ThermoFisher Scientific

ThermoFisher is the world leader in serving science. Our customers are accelerating life sciences research, solving complex analytical challenges, improving patient health through diagnostics or the development and manufacture of life-changing therapies, we are here to support them.

www.thermofisher.com/uk/en/home

 [View stall location](#)

2. Shimadzu UK

Shimadzu UK provides market leading Liquid and Gas Chromatography, Mass Spectrometry, Spectroscopy, Environmental and Materials Testing equipment. Shimadzu UK has a large team of expert technical specialists, with experience in a multitude of fields.

www.shimadzu.co.uk

 [View stall location](#)

5. Fisher Scientific UK

The Fisher Scientific channel has defined choice and convenience for over a century. Today, we offer a comprehensive portfolio of more than 2 million products from over 2,000 suppliers, together with extensive support services to deliver an unrivaled selection of innovative yet practical solutions.

www.fisher.co.uk

 [View stall location](#)

3. Promega

Promega Corporation is a leader in providing innovative solutions and technical support to the life sciences industry. With a branch in the UK, the company's portfolio of over 4,000 products supports a range of life science work.

www.promega.co.uk

 [View stall location](#)

6. Scientific Laboratory Supplies Ltd.

SLS have grown to be the UK's largest independent supplier of lab equipment, chemicals & consumables. We provide what you need, when you need it, all in one place! From pipettes and vials to the latest laboratory instrumentation, we pride ourselves on the quality of our products and our service.

www.scientificlabs.co.uk

 [View stall location](#)

7. Getinge Limited

With a firm belief that every person and community should have access to the best possible care, Getinge provides hospitals and life science institutions with products and solutions aiming to improve clinical results and optimise workflows.

www.getinge.com/uk

View stall location

10. VWR, part of Avantor

VWR provides access to mission-critical product and service solutions across life sciences and other regulated industries, including: Pharmaceutical, biotechnology, industrial, education, government, healthcare and advanced technologies.

www.uk.vwr.com/store

View stall location

8. Source Genomics

Source Genomics is your trusted laboratory service partner for your project, with unrivalled turnaround times.

www.sourcebioscience.com

View stall location

11. Grant Instruments

At Grant we deliver high-quality, reliable, and user-friendly scientific solutions that empower our customers to make meaningful contributions to research, healthcare, and environmental sustainability.

www.grantinstruments.com

View stall location

9. Verulam Scientific Ltd.

Verulam Scientific are an analytical instrument company providing tailored systems and new technology to the UK analytical laboratory market. We provide laboratories with the equipment and services that are crucial to modern analytical services and research.

verulamscientific.com

View stall location

12. Beckman Coulter UK Ltd.

Beckman Coulter Life Sciences is dedicated to developing and providing advanced technologies and equipment for research and discovery to explore new treatment methods.

www.beckman.com

View stall location

13. GENEWIZ

GENEWIZ is a world-leading genomics service provider and a trusted partner for NGS, Sanger Sequencing and Gene Synthesis. With a global network of genomics laboratories to help support you locally, we offer a suite of integrated genomics solutions to expedite your path to discovery.

www.genewiz.com/en-GB

 [View stall location](#)

16. HistologiX Ltd.

HistologiX is a trusted GLP & GCP compliant CRO for tissue-based analysis. We help you visualise and understand what your drug or device is doing to your key biomarkers at the cellular and tissue level. Working collaboratively, our experienced scientific team provides a bespoke service allowing you to make the most of our expertise in histology, immunohistochemistry (IHC) including multiplex immunofluorescence (IF), In Situ Hybridisation (ISH) using RNAScope & cutting-edge digital image analysis using Visiopharm.

www.histologix.com

 [View stall location](#)

14. Veolia Water Technologies UK

Veolia Water Technologies UK and ELGA LabWater are experts in highly purified water of all grades for scientific applications. Ensuring laboratories have water systems that continuously meet their highly purified water requirements.

www.veoliawatertechnologies.co.uk

 [View stall location](#)

17. Premier Control Technologies

Providing solutions for flow, pressure and temperature.

www.pctflow.com

 [View stall location](#)

15. iotaSciences

We provide instrumentation to facilitate single-cell isolation for applications such as cell line development, genome-editing and omics-based analyses, streamlining your experiments without the need for complex protocols and excessive manual handling. We also offer a UK-based genome-editing service.

www.iotasciences.com

 [View stall location](#)

18. Greiner Bio-One

Greiner Bio-One's product range includes products for cryostorage (cryovials, scanners and decappers), cell and tissue culture, including 3D and mass cell culture solutions, high throughput screening, high content screening, immunology, microbiology, liquid handling and molecular biology.

www.gbo.com

 [View stall location](#)

19. AGI Group

The AGI Group provides precision glassware solutions for a range of chemical processing applications across a variety of industries including scientific, pharmaceutical and academia. Our decades of glass blowing, and our robust engineering capabilities provide our customers with unrivalled products.

www.agi-group.com/international

 [View stall location](#)

22. Proteintech

Proteintech's product range includes: antibodies against 13,000+ human targets, immunoassay kits, RUO and GMP grade HumanKine cytokines and growth factors, and ChromoTek Nanobody-based reagents.

www.ptglab.com

 [View stall location](#)

20. eLabNext (Bio-ITech B.V.)

ELN and Inventory Management Systems.

www.elabnext.com

 [View stall location](#)

23. Thistle Scientific

We serve customers in the UK and worldwide with our expertise in custom-manufactured laboratory equipment and our devotion to sourcing innovative and exclusive products from top global manufacturers. We are here to support you at every stage of your career and make your research the best it can be.

www.thistlescientific.co.uk

 [View stall location](#)

21. ATG Scientific Ltd.

Supplier of Laboratory Products and Equipment Solutions for Analytical Chemistry and Drug Development.

www.atgscientific.co.uk

 [View stall location](#)

24. Bio Molecular Systems Ltd.

A leading manufacturer of high quality, easy to use, compact lab instruments. Ultra-fast, highly accurate 2 or 4 channel qPCR. Portable, robust and maintenance-free. Flexible liquid handling for any small-volume application. From simple transfers to complex assays or library prep.

www.biomolecularsystems.com

 [View stall location](#)

25. FACT3

We provide Finance, HR and IT solutions to SMEs. We create customised solutions which combine onsite and remote support, flexed to your business needs. Co-Sourcing gives immediate access to basic-to-board expertise across the 3 business critical pillars of Numbers, People and Systems.

www.fact3.co.uk

 [View stall location](#)

28. Edwards Ltd.

We are the technology leader in vacuum pumps, gauging and systems. Helping you to achieve clean and reliable vacuum environments. At Edwards, we understand the ever-evolving challenges within the scientific field. You can be assured Edwards has the right solution for you.

www.edwardsvacuum.com/en

 [View stall location](#)

26. Acrobiosystems

ACROBiosystems is a cornerstone enterprise of the pharmaceutical and biotechnology industries. Our mission is to help overcome challenges with innovative tools and solutions from discovery to the clinic.

www.acrobiosystems.com

 [View stall location](#)

29. Atom Scientific Limited

Atom Scientific is the UK's leading independent manufacturer of Chemicals, Solvents & Reagents. Our ranges include: Chemicals, Solvents, Volumetric Solutions, Buffer Tablets & Solutions and High Purity Solvents. We also offer a comprehensive range of laboratory consumables and small laboratory equipment. Atom Scientific can offer the scientific community a real alternative for sourcing their day-to-day requirements.

www.atomscientific.com

 [View stall location](#)

27. Oxford Biosystems

In-vitro diagnostics products and research tools for clinical, industrial and research laboratories from Oxford Biosystems cover many varied applications.

www.oxfordbiosystems.com

 [View stall location](#)

30. MGI Tech Co. Ltd.

Founded in 2016, MGI Tech Co., Ltd. (MGI) operates globally, serving 2,400+ customers in 90+ countries. Committed to leading life science through innovation, MGI produces high-throughput gene sequencers and multi-omics platforms for genetic sequencing, medical imaging, and lab automation.

www.mgi-tech.eu/en

 [View stall location](#)

31. CTS Europe Ltd.

CTS Europe Specialise in the design and manufacture of Laboratory Containment systems for the handling of pharmaceutical powders. We supply safe weighing solutions, glovebox solutions and also climatic control solutions.

www.containment-technology.co.uk

 [View stall location](#)

34. Opentrons Labworks

We make robots for scientists.

We believe that scientists should be able to focus on their science to accelerate discovery and innovation, and that access to automation is a key tool to facilitate that. Our mission is to democratize access to laboratory robotics.

www.opentrons.com

 [View stall location](#)

32. Labtech International Ltd.

Labtech was founded in 1993 and is a boutique supplier of laboratory instrumentation, reagents and consumables. Now part of the Calibre Scientific family, we continue to offer the highest levels of technical and application support, to help you achieve your research goals.

www.labtech.com

 [View stall location](#)

35. Element Materials Technology

Element, formally Crawford Scientific. The UK's premier supplier of chromatography products, training, consultancy, and technical services.

www.crawfordscientific.com

 [View stall location](#)

33. GMBSC Ltd. / Webster's Biosafety Ltd.

GMBSC Ltd provides consultancy services covering all aspects of biosafety, specialising in providing advice and expertise for genetic modification activities.

Webster's Biosafety Ltd provides Biosafety consultancy and training with a unique combination of experience from High Containment.

www.gmbsc.co.uk

 [View stall location](#)

36. Restore Harrow Green

Our specialist laboratory relocation division provides a wide range of expert lab services. Our teams have the expertise required to handle every aspect of a laboratory relocation from chemicals, research samples, specimens, sensitive data, refrigerated components, instruments, tools and equipment.

www.harrowgreen.com

 [View stall location](#)

37. DWK Life Sciences Ltd.

DWK Life Sciences is a leading global manufacturer of laboratory glassware, life science and pharma packaging solutions and supplier of laboratory plasticware.

www.dwk.com

 [View stall location](#)

40. Teledyne LABS

Teledyne LABS unites CETAC, Hanson, ISCO chromatography and pumps, Leeman Labs & Tekmar for Chromatography, GC Sample Prep, Elemental Analysis, Automated Liquid Handling, Pumping and Dissolution, Diffusion, and Physical Tablet Testing. We commit to sustainability and improving the quality of life.

www.teledynelabs.com

 [View stall location](#)

38. Repligen Europe BV

Repligen is a bioprocess life sciences company bringing expertise and innovation to our customers. We are inspiring advances in bioprocessing through the development and commercialization of high-value products and flexible solutions that address critical steps in the production of biological drugs.

www.repligen.com

 [View stall location](#)

41. Revvity

Revvity is a global leader in Life Sciences Diagnostics & Newborn screening. Our global laboratory network provide Pharma & Clinical services. It has recognized expertise in development of Biomedical assays & engages with its partners to accelerate therapeutic development for rare & common disorders.

www.revvity.com

 [View stall location](#)

39. Charles River Laboratories

Charles River provides products and services to help expedite the discovery, early-stage development and safe manufacture of novel drugs and therapeutics.

www.criver.com

 [View stall location](#)

42. SANI Membranes

SANI Membranes is the inventor of the Vibro® technology, used in biopharma, ingredients, food and dairy industries for filtration, separation, clarification and concentration. Primary applications are processing of all kinds of cell cultures, proteins, enzymes and separation of target molecules.

www.sanimembranes.com

 [View stall location](#)

43. Starlab UK

Liquid Handling Consumables Champions.

www.starlabgroup.com/GB-en

 [View stall location](#)

46. North England Laboratory Supplies

NELS have been supporting laboratories in the North of England for over 35 years. We can supply your laboratory and everything in it bar the staff! We supply chemicals, glassware, plastics, equipment and servicing/calibration.

www.nels.co.uk

 [View stall location](#)

44. Agilent

We create advanced instruments, software, and consumables. By working collaboratively with our customers and supporting their needs, we help them bring great science to food, pharma, environment, energy, chemical, academic research, and clinical fields.

www.agilent.com

 [View stall location](#)

47. Cool Repair Scientific UK Ltd. & MTS Cryostores UK Ltd.

Cool Repair Scientific specialise in; Service & Maintenance Laboratory Equipment, ULT Freezer Repairs & Breakdown, ULT Freezer Hire & Transport, ULT Freezer & Lab Equipment Sales.

MTS Cryostores Specialise In; Bio Banking & Bio Repository, Archive Sample Storage, Disaster Recovery and Sample Transport.

www.coolrepair.co.uk

www.mtscryostores.co.uk

 [View stall location](#)

45. Omser Scotland Ltd.

Omser work alongside Brady with laboratory & research partners to provide tailored solutions for their sample identification needs.

Whether you work in pathology, histology, chromatography or any area of science, Brady labelling solutions from Omser can help you maintain good laboratory practice.

www.omser.co.uk

 [View stall location](#)

48. SOTAX Ltd.

Sotax Ltd. is the world leader in supply of Tablet Testing Technologies for OSD's and compliant software, CRO Services and Multi-Vendor Laboratory Services.

www.sotax.com

 [View stall location](#)

49. **Buchi UK Ltd.**

For more than 80 years, BUCHI has been a leading solution provider in laboratory technology for R&D, quality control and production. World famous for the Rotavapor®. Specialising in evaporation, chromatography, freeze drying and spray drying solutions.

www.buchi.com/en

[View stall location](#)

50. **PHC Europe BV**

With more than 30 years of expertise and experience, PHC Europe is synonymous with manufacturing and supplying high-quality laboratory equipment such as Ultra-low temperature freezers, Cryogenic freezers, Refrigerators, Incubators, Environmental chambers and 3D cell culture plates.

www.phchd.com/eu/phceu
